

Strong agents still struggle to sustain improvement

Three Main Challenges

1 Model Behavior Understanding

Incomplete analysis

Partial Summary

Missed Patterns

Raw Trajectories

2 Executable Data Construction

Unfaithful Realization

	Expected	Actual
Behavior	Required checks	Missing checks
Execution	Runs correctly	Runtime error
Verifier	Task ☐ Required condition ☒ Unmet goal FAIL Unmet goal: FAIL	Task ☐ Required condition ☒ Unmet goal PASS Unmet goal: PASS

3 Cross-round Feedback Utilization

Disconnected Feedback
